Northwind Cycle is recalling the Caldera Junior bicycle accessory for repair. If you think you may have an affected Caldera Junior, stop using it immediately! The hitch connecting it to the bicycle can fail, causing the Caldera Junior to become unstable, which may result in injury. The Caldera Junior “tandem bicycle accessory” consists of a frame, wheel, seat, pedals, and handlebars. It attaches to the back of a standard bicycle by a hitch. Also, recalled Caldera Juniors have an aluminum sleeve on the hitch between the bicycle and the Caldera Junior. Caldera Juniors with nylon or plastic sleeves on the hitch are not included in this recall. Contact us or the retailer from whom you purchased your bike to get a new hitch. Re: Painting

This weekend, the office will be closed for painting, and no employees will be allowed in the building. Although official company policy discourages employees from working overtime hours from home, an exception will be made in this case. However, you should be sure to get prior approval for your overtime from your manager. Also, log on to the system from home when you start work, and remember to log off when you are finished. The painters will be here on Saturday morning, and they have requested that all office furniture be moved into the hallway. So, you are asked to leave work at 5:00 on Friday to give the maintenance staff a chance to rearrange the furniture. Your cooperation is appreciated.

Question 15 to 18 refer to the following advertisement

Received: Monday, June 4th, at 8:32 p.m. From: peter.lasco@allwalls.com Re: Appointment Cancellation Mr. Walker,

I apologize for having to cancel our appointment last Friday at the last minute. There was some urgent business at another job site, and I had to attend to it personally. I hope that we can reschedule for sometime next week.

Also, in your last e-mail you asked for some different options with regard to materials and our turnaround time. The sample books I couriered to you last week are the standard wallpapers that we use - 1.75 meter-wide, printed. But we have also started using a new process with large, floor-to ceiling rolls that produces a papered wall without seams. The papers are the highest grade, and most have silk highlights. As your project is a luxury apartment complex, these products may better suit your needs. This is a specialty process, requiring special equipment, and so there would be additional charges on top of our usual labor costs. Since you would be doing so many units in your building, perhaps we could offer you a discounted rate on the labor. I will discuss this possibility with our sales manager and let you know when we meet. With regard to our turn-around time, using standard-process papers we would be able to complete the 15 units in one week. The seamless wallpaper application process makes use of a large roller mechanism; so, potentially, we could complete the work in 3 days. Again, I am sorry to cancel our appointment. Please let me know at your earliest convenience when you would like to reschedule. Thank you.

Sincerely,

Peter Lasco Sales Rep,

All Walls, Inc

Customer Services Office WorldTravel Limited 25 Cramden Road London

To Whom It May Concern:

I spent most of the last two days calling your customer service lines in an effort to resolve this situation (see my customer reference number, A802234-202), but I have gotten nowhere.

So, I'm writing in the hopes that this letter will get into the hands of a more effective person. I'm really hoping you can help me.

On Monday, May 16th, I was in the airport checking my baggage for a flight to Amsterdam, and the young man who was helping me - James Strathcona was his name - tore the handle off my suitcase when he was lifting it onto the conveyor belt. I have since inquired as to how much it would cost to fix and was told it would be at least US\$45.00. I have enclosed a photocopy of the quote from the repairman.

In principle, I really feel these repairs ought to be paid by WorldTravel, as the damage was done while one of your people was handling my luggage. However, I am being given the run-around by your customer service staff whenever I call. One young man was even so bold as to suggest that the suitcase was probably worn out and ready to break anyway. I assure you that this is not true: I only recently bought the set, and the only reason it was broken was that it was handled with excessive force.

In all other dealings I've had with your company, I have had very positive experiences and I have no wish to fly with another airline.

I look forward to hearing from you soon, and I very much appreciate your help.

Yours faithfully,

Edith Smallwood

Question 26. What is the purpose of the letter?

- (A) To report a lost suitcase
- (B) To claim repair expenses
- (C) To complain about a flight
- (D) To request a copy of a quote

Question 27. What was the Customer Service department's response to Ms. Smallwood's claim?

- (A) They will reimburse her for the repairs.
- (B) They think she probably broke the handle herself.
- (C) They said they are not responsible
- (D) They said Mr. Strathcona should pay the cost.

Question 28. Why did Ms. Smallwood go to see a repairman?

- (A) To buy a suitcase
- (B) To ask for a refund
- (C) To find out about repair costs
- (D) To pay an outstanding bill

From: r.wilson@fossex.com

To Whom It May Concern:

I recently purchased a T-201 E-Klavier, and have been very satisfied. It has so many useful functions! If anything, it has too many. (It took me a whole afternoon to figure out how to use it properly; but, then again, I'm not exactly skilled with electronic gadgets.) It really lives up to the promises in your literature.

The sound is excellent. My son-in-law, who is a concert pianist, was impressed, so that says a lot.

Anyway, the main reason I'm writing is that my little granddaughter spilled her grape juice all over the top of the keyboard. I mopped most of it up at the time, but some got under the lid and now it's a sticky mess in there. I tried using a damp cloth as the user manual recommends, but it's just not coming off. I looked through all of the material on the website, too, but I think this problem is rather unique. I'm worried about ruining the finish, so I'm asking if there are any soaps or detergents that I could safely use.

Thanks a lot,

Randy Wilson

- (A) To complain about a problem with the keyboard
- (B) To ask for technical assistance in operating the keyboard
- (C) To commend the company on an excellent product

Re: IMPORTANT SCHEDULE CHANGES

Mike just called from the airport in Toronto, and it looks like he's going to be arriving late. There was some mix-up with his flight, I guess. Apparently, he told his secretary that he was expecting to be leaving tonight, but for some strange reason she booked the flight for tomorrow morning. That means that he won't be able to be here for his presentation. Anyway, he sounded really worried about it, and I didn't really know what else to do, so I said we'd rearrange the schedule. He won't be here until 11 o'clock at the earliest, so I'll have to put you and Richard first in Session I. I know you were only scheduled to speak for about 30 minutes, but I'd really appreciate it if you could stretch your presentation out a bit - maybe have a question-and-answer session or something. You need to fill about an hour. I know it's last minute, but these things happen. Whenever he gets in, we can start his session, and it won't be too bad. I figure, at worst, we'll be running about half an hour late.

Oh, and could you please let everyone know about the changes when you give your presentation tomorrow morning?

Thanks a lot for understanding.

See you tomorrow,

James Ransom

(D) He has decided not to attend the conference.

Question 37. When was the e-mail sent?

- (A) James Ransom (B) Michael Bornstein (C) Bill Ripley (D) Richard Grant

Hours of Work

All employees are expected to be present and on time for every working day. When circumstances prevent you from reporting to work, or when you know in advance that you will be late, you are expected to notify your manager prior to your normal start time.

If you are absent from work for three consecutive working days for reasons of illness, a doctor's statement regarding the nature of your illness and verifying consultation time and date may be required. Failure to provide doctor's verification of illness upon request may result in the time off being classified as an unexcused absence and your pay may be adjusted.

If you are absent from work without notification, it may be assumed that you are not returning, and we reserve the right to immediately terminate your employment and include a note in your record stating "voluntarily quit without notice,"

.....
March 11th, 2005 Dear Mr. Witherspoon,

I'm writing to you in the hopes that you will understand my situation. I trust that by now you will have heard about my situation from my manager. I hope that I can at least be given the chance to explain my side of the story. As for my manager, she is only doing her job, but I do think she has been totally unreasonable in following company policy to the letter and not giving the least bit of consideration to normal human error.

I was very ill from February 20th to 24th, and I took those days off work to recover. I did not go to the doctor as it was just a case of food poisoning, and all I really needed was bed rest. I did, however, call each day to tell my manager. When I returned to work, she asked me for a doctor's note, and I told her I couldn't produce one. That was the last I heard about it until payday when I noticed that my pay was short. I asked my manager about it, and she told me that I wasn't being paid for the days I was home sick from work. That's when she told me about the policy. And when I complained, she insisted I bring it up with you.

Needless to say, I'm very upset that this money was withheld from my pay. It was my understanding that I was allowed to take paid sick days from work, and I'm sorry to say that I had no idea about this policy about having to hand in a doctor's note. I really need that money as I have a very tight budget this month. It was a mistake, and, had I known, I certainly would have gone to the doctor about my condition. I hope you can understand my situation.

Yours sincerely,

Brenda Wilson

Dear Mr. Blake,

I'm not sure if you remember me. We met at the company Christmas party last year. My name is Christina Appleby, and I work in the information systems department. My manager, Chris Knowles, recently informed me of a position that is opening in the Human Resources department for an HR manager and suggested that I apply for it.

I have attached my resume for you to look at, and I think you will find that my background is what you are looking for. As you will see, I've been working in this industry for more than twelve years, the past five of which I've been with this company. I hold an MBA from Sloan MIT. The team that I've been in charge of has consistently produced results on schedule, and I feel this demonstrates my ability to manage and motivate others.

I understand that the position would involve relocating, but this would be fine. My husband is actually considering a job in the same area as it so happens.

I'd be very pleased to meet with you to discuss my suitability for this position. Thank you for your consideration.
